

MY COLDHURST

"Coming together is a beginning, keeping together is a progress, working together is a success."

LET'S MAKE COLDHURST GREAT

After two weeks since the successful Eid Clean Up programme, the street champions are pleased to announce the launch of MY COLDHURST, with the objective of getting the local residents of Coldhurst Area to take charge of the spaces in which they live, play and work in. Have you stopped and asked yourself this important question? "What am I doing to contribute to the cleanliness of MY space?"

If you have a positive answer, good on you. Keep doing the great work that you're doing. If you have answered negatively, i.e., that you have not yet done anything, it is never too late. Start now. Go out there, open the door of your home, shop or workplace and look at the deteriorating effect of litter on the area. Too often, we notice an illegal dumpsite, but refuse to take the initiative to report it. We witness family and friends throwing dirt out their car windows, yet we are silent. Why is this?

This is the area that we love, that we live in. It is up to all of us to maintain the dignity of Coldhurst, stop littering and assist our communities and the Government so that we can achieve MY COLDHURST vision of becoming Oldham's most caring and liveable area. This vision is not achievable alone. We require the commitment from our local residents, businesses, street champions and council to jump on board and ensure that we push until it is running at full speed.

My Coldhurst Vision

My Coldhurst programme is about educating and motivating the people of Coldhurst and surrounding areas to work together to build a clean & sustainable living environment for the current and future generations. It's about taking ownership and responsibilities of your living space. It's about civic pride so that a culture of responsibility, inclusion and belonging is established.

Let us all work together to make Coldhurst Great, this vision cannot only be achieved by council officials and Community Leaders. This is our area let's contribute positively, we must all work together to make a meaningful contribution towards making our Coldhurst Great.
